## Remarks

Welcome to this hidden gem nestled in the beautifully discreet location of St. Pauls St. Georges. Spanning over 30,000 square feet, this property offers a unique opportunity to create your dream space. Access is provided through a concrete road. Situated on the land is a building that holds immense potential. While it is in need of renovation, it boasts an impressive layout featuring 10 rooms, 4 bathrooms, an office, and a spacious storage room. The buyer has the opportunity to tailor the space to your exact preferences, a home or a innovative business venture, or a combination of both. With a history as a former home for the elderly, this lends itself to the potential for creating a nurturing environment once again, or transforming it into something entirely new. Fruit-bearing trees such as breadfruit, mango, golden apples, and plums were formally on the land with some still remaining. The majority of the land is flat/level, making it ideal for a variety of outdoor activities or further development Utilities, including electricity and water connections. Additionally, the ample parking space ensures the convenience of both residents and visitors.
